

### MCQ 1

Question: What is being compared against Chebyshev in the context of time delay improvement?

- A) Po
- B) L
- C) CML
- D) DCML

Correct Answer: C

### MCQ 2

Question: What type of function is associated with the "map" in the provided text?

- A) Chebyshev
- B) CML
- C) DCML
- D) Po

Correct Answer: B

### MCQ 3

Question: What are Chebyshev and CML being compared against in terms of sequences?

- A) Random sequences
- B) P sequences
- C) L sequences
- D) Po sequences

Correct Answer: B

### MCQ 4

Question: What specific type of CML sequences is mentioned?

- A) P sequences
- B) L sequences

C) DCML sequences

D) Random sequences

Correct Answer: C

#### MCQ 5

Question: What kind of analysis is associated with the number 4?

A) Time delay analysis

B) CML mapping analysis

C) Random performance analysis

D) Chebyshev sequence analysis

Correct Answer: C
